

Reports

Last Modified on 17/05/2019 2:43 pm AEST

I'm a committee member, but I can't see any committee reports.

Committee members can have additional access to committee reports. This access must first be linked to your StrataMax Portal Account.

See our article on [Request Committee Access](#) . If none of these options work, contact your strata manager to confirm that you are correctly recorded on the strata committee record.

I own multiple properties, but the type of documents I see are different between my properties.

Your strata manager will determine what documents are available on the StrataMax Portal. If you are expecting a document to be available but it isn't, contact your strata manager directly.
